

UNITED IS THE WAY

We Build Thriving Communities

For nearly a century Granite United Way has driven impact throughout our community. This year, we **delivered over \$18 million in support** across New Hampshire & Windsor County, VT. Our strategic investments put resources in our local regions -- establishing healthy communities, accessing housing security, ensuring family support and youth opportunities, improving financial stability and connecting individuals to resources -- **helping over 450,000 individuals each year.**

SULLIVAN COUNTY EXPANSION

This past year marked Granite United Way's first year expanding our impact into Sullivan County. We connected with local partners through our first Day of Caring, food and coat drives, and new opportunities to meet community needs and build a stronger, more connected region.
